Effective Date: January 29, 2013

For purposes of understand QA/AC responsibilities and procedures in the upcoming project, please take note the QA/QC guideline document which is still under further refinement and is currently available at the Kendrick Road Bridge (Contract D900010) or NY Rte 347 (Contract D900012) project websites, under sections of DB 100. The specific reference where you will find the material is sections 112 and 113 of Part 1 of the RFP documents. The program guide to QA/QC is found at section 112C and the format template for the Quality Control plan is found at section 113A. Once again the Department reserves the right to modify and/or enhance the requirements in all sections and the guide and the format template. This provides an advance opportunity to review the QA/QC requirements and it may reduce the number of questions associated with the process.
