Outside of the Adirondack Park, a joint DEC/COE application procedure is in place. Submit 3 copies of the permit package to the NYSDEC regional office (see Attachment 4.A.B for NYSDEC regional office map); a copy of the application will automatically be forwarded by NYSDEC to the COE. For federal-jurisdictional waters and wetlands that are not state-regulated, send a joint application to the District COE office only (see Attachment 4.A.A for COE District map).

For application inside the Adirondack Park, submit separate application packages to the APA and COE (use joint application form).

Package Contents:

1. Joint Application For Permit (NYSDEC form 95-19-3) (Attachment 4.A.G.) indicating application for Section 10 and/or Section 404 permits, Article 24 and/or 25, Section 401 Water Quality Certification and any other applicable state or federal permits for work affecting waters.

2. Individual CZM concurrence from NYSDOS if in a designated Coastal Area and required for COE permit.

3. Formal wetland delineation maps and delineation report.

4. Project description, including location map.

5. Proposed construction timetables.

7. Scale drawings and cross-sections (1"=50' or smaller).
   To expedite review of proposal, include a set of drawing on 8.5" by 11" size paper.

8. Recent photographs.

9. Other supplementary materials as necessary.
