**Project Title:**  
C-06-10: Temporary Rumble Strips  

**PIN:**  

**Responsible Unit:** Operating Division, Operations Management Office  
**Project Manager:** Riedel, Charles  

**Project Goal:**  
The objective of this program is to develop a self-deploying and retrieving rumble strip that can be used as a warning device in construction or accident zones. The self-deploying and retrieving feature will permit a highway worker, police or fire officer to deploy and retrieve the rumble strip without having to walk across the highway. The temporary rumble strip will not affect the surface finish of the pavement. The rumble strip will be secured to the shoulder of the road.

**Actions Proposed:**

**Anticipated Work Products and Accomplishments:**
A Self-Deploying and Retrieving Rumble Strip  

**Proposed Budget:** $150,000
