

 NEW YORK STATE OF OPPORTUNITY.	Department of Transportation	ENGINEERING INSTRUCTION	EI 21-XXX
Title: 619 STANDARD SHEET REVISION – WORK ZONE TRAFFIC CONTROL			
		Approved: <div style="display: flex; justify-content: space-between;"> <div data-bbox="873 470 1325 541"> Erica Gundrum, P.E. <i>for</i> Deputy Chief Engineer (Construction). </div> <div data-bbox="1398 470 1520 504"> Date </div> </div>	

ADMINISTRATIVE INFORMATION:

- This Engineering Instruction (EI) is effective with projects submitted for lettings on or after September 1, 2021.
- This EI does not supersede any previous issuances.
- The revisions issued with this EI will be incorporated into the Standard Sheets that will be effective on September 1, 2021.

PURPOSE: To announce the availability of the revised 619 *Work Zone Traffic Control* Standard Sheets.

TECHNICAL INFORMATION: This revision to 619 Standard Sheets for Work Zone Traffic Control includes the following:

- All previous WZTC Manual “Typical Applications” have been converted to 619 Standard Sheets
- All 11 x 17 sheets are presented with the color plan view (Not To Scale) on the left side of the page, and all required tables, notes and legends on the right side.
- Standard Sheets utilize a consistent naming convention sequence of (a) Roadway Type, (b) Closure Type, and (c) Work Duration.
- All existing standard sheets were incorporated with the existing work zone traffic control typicals to eliminate duplication and inconsistent guidance.
- All standard sheets updated to new Standard Sheet format.
- The 95 updated standard sheets are numbered in the following categories:
 - General Information (619-001 to 619-020)
 - Special Applications (619-021 to 619-100)
 - Mobile Operations (619-101 to 619-200)
 - Short Duration Operations (619-201 to 619-300)
 - Short Term Operations (619-301 to 619-400)
 - Intermediate Operations (619-401 to 619-500)
 - Long Term Operations (619-501 to 619-600)

TRANSMITTED MATERIALS: The revisions to the 619 Work Zone Traffic Control Standard Sheets are available on the Department’s website at <https://www.dot.ny.gov/main/business-center/engineering/cadd-info/drawings/standard-sheets-us/619>

BACKGROUND: This revision was initiated to ensure that all NYSDOT work zone traffic control guidance is consistent and uniformly applied, whether the road work is being conducted by a Contractor under a capital construction project, by a utility company or Contractor working under a highway work permit, or by our own highway maintenance workers. All temporary traffic control should be following the same guidance, for the safety of the traveling public.

CONTACT: Questions related to 619 Standard Sheets should be directed to Geoff Wood, P.E., Highway Safety and Traffic Operations Bureau, Office of Traffic Safety and Mobility via email at Geoffrey.Wood@dot.ny.gov, or by phone at (518)457-8900.
