ANNOUNCEMENT

New York State Department of Transportation
Approved Single Source Justified N.Y.S. Contract Reporter Exemption
Contract #C031107
“Accident Location Information System (ALIS) Application Maintenance & Support”
Fountains Spatial, Inc.

On October 30, 2013, the State Comptroller’s office granted the Department an exemption for competitively advertising, thus approving its October 29, 2012 single source justified N.Y.S. Contract Reporter exemption request for a 24-month term, original agreement with Fountains Spatial, Inc., to provide Accident Location Information System (ALIS) Application Maintenance & Support Services for NYSDOT under contract #C031107.

Pursuant to NY State Finance Law Section 163.10 (b), the Department is stating that a competitive procurement was not feasible because this Consultant will continue to provide essential ALIS system maintenance since 2007 when ALIS services were originally procured by OFT under OGS Backdrop Contract Group #73012, Award #S960275E.1, Project Code: CSCIC2007-02 (which expired on September 30, 2012). The project has evolved to where DOT will assume all control of the project. Further, the requirements for these services have been designed in a fair and equitable manner, and that the contract period selected is limited to the minimum period of time necessary to ameliorate the circumstances which created the material and substantial reasons for the single source award.
