The New York State Department of Transportation (NYSDOT) will issue a Request for Qualifications (RFQ) from firms interested in providing Design-Build Services for the design and construction of a new Rochester Station located at 320 Central Avenue in the City of Rochester, Monroe County.

The Draft RFQ was published on February 22, 2013 to the following NYSDOT web site:  

A meeting to discuss the project and the procurement process, and to gather input from the business community and potential proposers before NYSDOT issues the final RFQ, is scheduled for March 1, 2013 at the address below.

It is anticipated the project could include the following:

- Architectural design, engineering, and construction of new Intermodal Center and Train Station, railroad tracks and new high level platform.
- Architecture and Landscape Architecture services to meet aesthetic requirements.
- Construction staging to minimize impacts to the traveling public and passenger and freight train operations.
- Construction of temporary ADA compliant Station including utilities, walkways, baggage cart pathway and ramps.
- Pedestrian and baggage cart passageway (under track tunnel or bridge over track) construction.
- Railroad track construction.
- Construction of temporary passenger platform.
- Asbestos removal and abatement.
- Demolition of existing station, station utilities, tunnels and parking.
- High level platform, platform canopy and shelter construction.
- Ramp, stair, escalator, and elevator construction.
- Signing and parking area markings.
- Utility relocations and connections.
- Site drainage alteration and reconstruction.
- Pedestrian and bicycle access/amenities.

An Informational meeting is scheduled as follows:

**When:**
March 1, 2013 (Friday), 9:30 AM – 11:00 AM

**Where:**
New York State Department of Transportation - Region 4 Office
