REQUEST FOR QUALIFICATIONS
ADDENDUM #2

April 19, 2017
RFQ Appendix A – Project Information:
Delete Page A-6 of RFQ Appendix A - Project Description and substitute the attached revised Page A-6.

No other provisions of the solicitation is otherwise changed or modified.

Note to Proposers:

Differences between the deleted pages and the revised pages have been identified as follows:
Brackets have been inserted on the left-hand margin of the pages to indicate where changes have been made to the documents; and

Text additions have been shown in underlined red font and text deletions have been shown in crossed out red font.
b) **Design Manager:** Shall be licensed and currently registered as a Professional Engineer in the State of New York, shall be an owner or employee of the Designer and shall have a minimum of 15 years demonstrated experience in managing design for infrastructure and bridge projects, preferably of similar scope as this Project. The Design Manager should have Design-Build experience, and should have specific experience on projects of similar size and type. The Design Manager can hold only this one Key Personnel position. The Design Manager shall dedicate no less than 75% of their work time to this project.

c) **Quality Manager:** Shall have demonstrated experience in bridge design and infrastructure construction with at least 10 years experience in quality assurance and quality control activities, including preparation and implementation of Quality Plans and procedures for design and construction. The Quality Manager can hold only this one Key Personnel position. The Quality Manager should have experience of quality systems based on ISO 9001, and should have experience with the quality systems of the Department. The Quality Manager shall dedicate no less than 30% of their work time to this project.

d) **Resident Engineer:** Should be licensed and currently registered as a Professional Engineer in the State of New York and should have demonstrated at least 15 years experience in bridge and highway construction inspection, including at least 5 years as a Resident Engineer. The Resident Engineer shall have performed Resident Engineer duties on a project within the last 3 years.

11.0 **DESIGN-BUILDER’S RESPONSIBILITIES**

The selected Design-Builder shall be responsible for furnishing all labor, material, equipment, services and support facilities for the following summary list, in addition to any other items that will be detailed fully at the RFP stage:

- Design and construction of all Project components;
- Project design and construction management;
- Support to project-related public information activities;
- Coordination with Project stakeholders, other contractors and utility owners;
- Coordination of DBE/Local Workforce Initiative;
- Design Quality Control;
- Construction Quality Control;
- Construction Inspection;
- Laboratory Testing of Materials;
- Environmental mitigation and compliance plan including monitoring, and securing permits and approvals necessary for the work not acquired by the NYSDOT;
- SWPPP Document preparation;
- Additional environmental investigations, permitting, monitoring and investigation associated with or resulting from the Design-Build Proposer’s actions including but not limited to staging areas, haul routes and other activities necessary for construction;
- Work zone traffic control and access to properties;
