NOTES:
1. Water service taps on a new or existing main shall be placed at the 2 o'clock position and shall be placed a minimum of 1 foot from the end of the pipe. They shall be 1 foot from the end of a tap at the end of a pipe.
2. Unless otherwise noted in the owner requirements, all new service lines shall be Type K Copper in accordance with 722-06.
3. All fittings, including corporation stop, curb stop, couplings, elbows, etc. shall be brass, in accordance with 722-06 and owner requirements.
4. The pipe stop and curb box shall be placed within the city limits of a fire and the city limits of the owner and in accordance with the owner requirements.
5. Relocated curb stop and box shall include new water service line to the city limit boundary or as shown on the contract plans and in the owner requirements.
6. The curb box cap shall be set 5 inches below finished grade.
7. Unless otherwise noted in the owner requirements, meters will be supplied by the owner at the cost of the contractor or by the state. Plumbing shall be installed as required for the individual installation.

WATER SERVICE TAPS ON A NEW OR EXISTING MAIN SHALL BE PLACED AT THE 2 O'CLOCK OR 10 O'CLOCK POSITION AND SHALL BE PLACED A MINIMUM OF 1 FT APART ALONG THE LENGTH OF THE MAIN. NO TAPS SHALL BE PLACED WITHIN 2 FT OF THE END OF A PIPE.

UNLESS OTHERWISE NOTED IN THE OWNER REQUIREMENTS, ALL NEW SERVICE LINES SHALL BE TYPE K COPPER IN ACCORDANCE WITH 722-06.

ALL FITTINGS, INCLUDING CORPORATION STOP, CURB STOP, COUPLINGS, ELBOWS, ETC. SHALL BE BRASS, IN ACCORDANCE WITH 722-06 AND OWNER REQUIREMENTS.

CURB STOP AND CURB BOX SHALL BE PLACED WITHIN THE HIGHWAY RIGHT OF WAY AND WITHIN THE SNOW STORAGE AREA WHENEVER POSSIBLE, OR AS SHOWN ON THE CONTRACT PLANS AND IN THE OWNER REQUIREMENTS.

RELOCATED CURB STOP AND BOX SHALL INCLUDE NEW WATER SERVICE PIPE TO THE HIGHWAY BOUNDARY OR AS SHOWN ON THE CONTRACT PLANS AND IN THE OWNER REQUIREMENTS.

THE CURB BOX CAP SHALL BE OF THE PLUG TYPE WHEN PLACED IN A PAVED SURFACE, AND THE TWO HOLE TYPE WHEN PLACED IN A GRASSED OR LANDSCAPED AREA.

WHEN PLACED IN GRASS, THE TOP OF CURB BOX SHALL BE SET 5 INCHES BELOW FINISHED GRADE.

UNLESS OTHERWISE NOTED IN THE OWNER REQUIREMENTS, METERS WILL BE SUPPLIED BY THE OWNER AT THE COST OF THE CONTRACTOR OR BY THE STATE. PLUMBING SHALL BE INSTALLED AS REQUIRED FOR THE INDIVIDUAL INSTALLATION.
