The New York State Department of Transportation (NYSDOT) anticipates the release of a Request for Information (RFI) which seeks information regarding interest and capabilities of firms capable of conducting work (for NYSDOT) to incorporate conservation objectives in transportation planning based on outcomes from a TNC State Wildlife Grant project currently underway (as part of a contract with the NYS Department of Environmental Conservation, Contract No. 303569).

Information obtained as a result of this RFI may be used by the Department to develop a needs requirement upon which a future Request for Proposals may be based. If further information is required or should questions arise, please contact the NYSDOT Contact Persons listed below.

NOTE: Although this is NOT a Request for Proposals (RFP), information gathered as a result of this RFI may be used in a future RFP. Failure to respond to this RFI will indicate lack of interest and may be the deciding factor in not pursuing an RFP. Furthermore, lack of interest or responses to this RFI may result in a Single Source Justification. The information obtained through this RFI may be used to develop a needs requirement upon which future procurements may be based. Again, failure to respond indicates lack of interest. NYSDOT encourages all interested firms to respond to this RFI.

Responsive and responsible consultants interested in receiving the RFI should access the NYSDOT link below or submit a brief, one-page, Letter of Interest (LOI) to the e-mail address of the Contact Person listed below. The LOI should include, at a minimum, the firm name, address, e-mail address, and phone number of a contact person at your firm, as well as the contract number and title of the RFI. An electronic letter announcing the release of the RFI will be e-mailed to all parties submitting an LOI. When ready, the RFI will be posted to the NYSDOT website and will contain all the information necessary for firms to submit a response. It is expected that the RFI will be released on or after September 14, 2009. (Please note: Hard copies of these documents can be sent to those parties who do not have e-mail or internet access.) If the release of the RFI is delayed for any reason, the due date for responses may be extended appropriately.

For a full description of this project and its requirements, please visit the NYSDOT website at (look for Contract #C030901): https://www.nysdot.gov/business
