New York State Contract Reporter Announcement

NEW YORK STATE DEPARTMENT OF TRANSPORTATION

JANUARY 19, 2018 ADDENDUM TO
CADD & Civil Engineering Software and Services For NYSDOT
Request for Information #2015-03
(Originally Dated July 24, 2015)

On July 24, 2015 the New York State Department of Transportation (NYSDOT) issued Request for Information (RFI) #2015-03 which sought information from qualified parties capable of providing CADD and Civil Engineering software and services to NYSDOT. On January 19, 2018, NYSDOT anticipates the release of an Addendum to RFI #2015-03 to gather additional information from qualified parties capable of providing CADD and Civil Engineering software and services to NYSDOT.

NYSDOT is still considering issuing a Request for Proposal (RFP) for computer-aided design and drafting (CADD) software, training, and support solutions. The purpose of the original RFI was to gather initial information from vendors with experience in providing civil engineering drafting and design solutions to government agencies for use in the planning, design, construction, maintenance, and management of transportation related engineering. The purpose of this RFI Addendum is NYSDOT seeks additional information to further identify current industry technologies, capabilities, and contractual opportunities/limitations. NYSDOT is interested in receiving information on a wide variety of solutions, both for the identified core functions & objectives (refer to RFI Sections 2.2 & 2.3) as well as for any alternate, additional, or peripheral functions which may not be specifically identified. NYSDOT prefers that responding vendors have direct administrative control (i.e., without subcontracting) of tools for: drafting, roadway design, bridge design, structural analysis, file management, contract plan and production, land surveying data integration, and project collaboration with internal and external partners.

NYSDOT seeks additional responses to all new information presented in the about-to-be-released RFI Addendum (which will be in RED font). Vendors may provide NEW, UPDATED or CHANGED information to previously provided responses; however, NYSDOT does not seek completely new RFI responses.

NYSDOT anticipates releasing the RFI Addendum on Friday January 19, 2018. All vendors who have responded to the original RFI will receive an e-mail alerting the RFI Addendum’s posting to NYSDOT’s website.

All questions regarding this announcement should be sent to alfred.hasenkopf@dot.ny.gov or please call 518-457-1560. The subject line of the E-mail must clearly state: “RFI 2015-03 Addendum Question: Firm Name.”
