REQUEST FOR PROPOSALS
RFP MODIFICATION #2
Land Surveying Equipment and Services for NYSDOT
Office of Design Land Surveyors
Contract #C037922
August 21, 2020

Dear Interested Party:

1. Reference is made to the subject solicitation wherein the following changes are hereby incorporated:

   a. **Attachment 17: Deliverables Requirement Table, Radio Modem: Requirement #126** - This requirement is hereby deleted in its entirety and replaced with:

      The radio modem shall be capable of operating as a base/rover and capable of a range of at least 2 miles

   b. **Attachment 17: Deliverables Requirement Table, GNSS Receiver Requirements: Requirement #59** - This requirement is hereby deleted in its entirety and replaced with:

      The GNSS Receiver shall provide a seamless flow of field data from the Data Collection software to NYSDOT’s Standard CADD Software, Bentley Microstation/InRoads. These GNSS rover packages shall include a Geodetic GNSS receiver with integrated antenna, accessory equipment for surveying, and planning/post processing software. GNSS rovers shall include a LTE modem for connecting to the Verizon Wireless Network and the NYSNet CORS/RTN and shall be capable of using RTCM Version 3 MAC Network RTK (NRTK) corrections. GNSS receivers shall also include a license free 900 mhz spread spectrum radio modem to enable use of RTK on a project using a local base station.

   c. **Attachment 17: Deliverables Requirement Table, Fixed Internal Memory Storage: Requirement #92** - This requirement is hereby deleted in its entirety.

   d. **Attachment 17: Deliverables Requirement Table, Data Interface: Requirement #99** - This requirement is hereby deleted in its entirety and replaced with:

      Port(s) for wired connection input/output and data collector control.
e. **Attachment 17: Deliverables Requirement Table, Cell Modem: Requirement #124** - This requirement is hereby deleted in its entirety and replaced with:

   Per RFP SECTION 3.2.1: Each GNSS receiver shall be supplied with an integrated or modular LTE modem capable of connection to the Verizon data network in NYS. Modems will be activated on the Verizon network by NYSDOT. NYSDOT will be responsible for the monthly activation fees. An external antenna shall be included for the cellular modem.

f. **Attachment 17: Deliverables Requirement Table, Communications: Requirement #150** - This requirement is hereby deleted in its entirety and replaced with:

   Port for wired connection.

g. **Section 3.3: Contract Term and Rate Adjustments**
   This section is hereby deleted in its entirety and replaced with:

   **Section 3.3: Contact Term**
   NYSDOT estimates that the work for the successful consultant will commence on **March 1, 2021**. The base term or duration of the contract is five (5) years, upon final approval of the NYS Office of the State Comptroller (OSC).

h. **Section 1.4: Designated Contacts**
   This section is hereby deleted in its entirety and replaced with:

   **Section 1.4: Designated Contacts**
   Potential responders are advised that under New York State Finance Law Section 139-j, communication on procurements can be made only to designated contact persons. The Department’s Designated Contacts for this Procurement is:

   Primary Contact:
   Melissa Johnson
