Bridge Replacement on Interstate 190 over NY Route 384 (Buffalo Avenue)  
In The City Of Niagara Falls, Niagara County  

Find this project on Facebook: I-190 Bridge over Buffalo Avenue

Contract Number: D262260  
DOT Project Number: 5051.10

Project Description: This project will replace two Interstate 190 bridges over Buffalo Avenue in the City of Niagara Falls, to provide new bridge abutments, bridge decks, and new pavement. The work will also include the rehabilitation of Buffalo Avenue between 63rd and 65th streets, and the replacement of existing sidewalks, curbs and ramps.

Contractor: Concrete Applied Technologies (CATCO)

DOT Engineer in Charge (EIC): Kim Silvestro, P.E.  
kim.silvestro@dot.ny.gov

Contact Information: (716) 205-8676 office

Media Inquiries: Susan Surdej, P.E. NYSDOT Region 5 Public Information Officer  
(716) 847-3239 office

Work Details: The two Interstate 190 bridges will be replaced with pre-fabricated concrete decks. New concrete abutments will be constructed, and Buffalo Avenue will be reconstructed to a lower profile depth of the roadway. This will provide adequate truck clearance under the new bridges. During erection of the new bridge decks I-190 traffic will exit and re-enter at Exit 21 using exiting and new temporary detour ramps.

Traffic Impact: During reconstruction of Buffalo Avenue and the setting of the new I-190 bridges, Interstate 190 northbound and southbound will remain open, and the Interstate 190 northbound ramp to the Robert Moses Parkway (to Niagara Falls State Park and Downtown Niagara Falls) will remain open.

During reconstruction Interstate 190 Exit 21 will be closed. Buffalo Avenue (NY Route 384) will be closed between 63rd Street and 65th Street, and the Buffalo Avenue and Robert Moses Parkway on/off ramps to Interstate 190 will be closed for 4 to 6 weeks for roadway rehabilitation. Traffic will need to follow posted detours.

Motorists and commercial carriers traveling through the work zone will need to allow extra travel time.
Three Travel Restrictions You Need To Know:

1. **The Interstate 190 Exit 21 on and off ramps to Buffalo Avenue (NY Route 384) will be closed.** Interstate 190 southbound traffic to Buffalo Avenue (NY Route 384) westbound will need to exit early at Niagara Falls Boulevard (US Route 62) and follow the posted detour route. Interstate 190 southbound traffic to Buffalo Avenue (NY Route 384) eastbound should continue south on Interstate 190 to the LaSalle Expressway and follow the posted detour route. Buffalo Avenue traffic to Interstate 190 will be directed to follow detour route.

2. **Buffalo Avenue (NY Route 384) between 63rd Street and 65th street will be closed to all traffic.** A posted detour using 56th Street, Niagara Falls Boulevard, and the LaSalle Expressway will be in effect during the closure.

3. **Robert Moses State Parkway westbound traffic to Interstate 190 northbound and southbound will need to follow posted detour routes.** The posted detour will direct traffic to continue east to the LaSalle Expressway and then exit and re-enter the LaSalle Expressway westbound at 77th Street to access Interstate 190.
