

ITEM 08203.04M - REMOVAL AND DISPOSAL OF WASTE TIRES

DESCRIPTION

This work shall consist of the removing and properly disposing of waste tires from locations shown on the plans, and/or where specified by the Engineer, in conformance with this specification.

MATERIALS

None Specified.

CONSTRUCTION DETAILS

All waste tires shall be removed from the job site, as directed by the Engineer. If the tires are disposed of in New York State, then they shall be disposed of at a New York State Department of Environmental Conservation (NYSDEC) permitted waste tire processing facility, in accordance with 6 NYCRR, Parts 360 and 364. If the tires are disposed of out-of-state, then they shall be disposed of at a facility that is permitted by that state. Tires must be transported in a Part 364 permitted vehicle. Any Federal, State, County, or Local regulations concerning transport and disposal of tires must be followed.

METHOD OF MEASUREMENT

The work will be measured as the number of tires, regardless of size, removed and disposed of as shown in the plans and as directed by the Engineer.

BASIS OF PAYMENT

The unit price bid shall include the costs for all equipment and labor involved for the proper transport and disposal of the waste tires, necessary to complete the work. Documentation signed by the processing facility verifying the receipt of the indicated quantity of tires at the facility shall be evidence of disposal.
