

ITEM 10203.27 M - CLEANING EXISTING DIFFUSION WELLS

DESCRIPTION

Under this work the Contractor shall clean and maintain the existing diffusion wells which are specified on the plans or directed by the Engineer to be cleaned.

MATERIALS

Not specified.

CONSTRUCTION DETAILS

Diffusion wells shall be cleared of silt and debris and maintained for the duration of this contract in a manner approved by the Engineer. Dewatering shall be performed as necessary to properly clean and inspect the diffusion wells. The Contractor shall provide necessary protection against damage to the existing structures.

METHOD OF MEASUREMENT

This work will be measured by the number of diffusion wells actually maintained as specified under this item.

BASIS OF PAYMENT

The unit price bid shall include all labor, material and equipment necessary to clean and maintain existing diffusion wells. Only one payment will be made regardless of the number of times each diffusion well is cleaned or maintained.
