

ITEM 17203.3708 M - SAND FOR SUBSURFACE GROUTING

DESCRIPTION

Furnish and incorporate sand in grout mixtures.

MATERIALS

Provide materials meeting the requirements of the following Subsection of Section 700 -
Materials:

703-03 MORTAR SAND

CONSTRUCTION DETAILS

Add sand to the grout items either as shown on the plans or as directed by the Engineer.

METHOD MEASUREMENT

The quantity to be paid for shall be the number of cubic meters of sand added to the grout, acceptably furnished, batched, mixed and injected.

BASIS OF PAYMENT

The unit price bid per cubic meter shall include the cost of all labor, material and equipment necessary to properly complete the work.

Payment will be made for the sand introduced into the mix even though some of it will be used for delivery purposes and not necessarily incorporated in the work. Mechanical breakdowns of equipment shall be the Contractor's responsibility and, in the event of a breakdown, the cost of the material required to refill the grout equipment's discharge system shall be borne by the Contractor.
