

## **ITEM 10209.2110 M - WATER FOWL ENCLOSURE FENCE**

### **DESCRIPTION:**

This work shall consist of furnishing, installing, and maintaining water fowl enclosure fence for the protection of wetland plant material. The installation of the fence shall be done in accordance with these specifications and in a reasonably close conformity with the details shown on the plans or as directed by the Engineer.

### **MATERIALS:**

The water fowl enclosure fence shall consist of hardwood wooden stakes, string, cloth strips, galvanized nails.

### **CONSTRUCTION DETAILS:**

The water fowl enclosure fence shall be placed lengthwise with the lowest row of fence in front of the lowest elevation row of wetland plants. The spacing of the rows of wood stakes shall be as shown in the plans or as directed by the Engineer. The second row and any other subsequent rows, the wood stakes shall be staggered  $\frac{1}{2}$  the width of the preceding row.

The water fowl enclosure fence shall also be installed along the sides of the limits of the planting area. Three rows of cloth string shall be spaced as shown in the plans and wound around at least 3 turns to each of the galvanized nails installed in the wood stakes. The first row of string shall be placed 250 mm from the bottom elevation of the existing planted surface. The string shall be installed to create a crisscross pattern between the rows of wood stakes. The Contractor shall hang five pieces of survey tape in 150mm lengths to the string for visibility between the wood stakes.

The Contractor shall install the fence the same day the wetland plant material is installed.

The removal of the Water Fowl Enclosure Fence shall be done at the completion of the contract or at the end of the Period of Establishment which ever is longer, or as ordered by the Engineer or Regional Landscape Architect.

### **MAINTENANCE**

The Contractor shall be responsible to maintain the Water Fowl Enclosure Fence and plant material for the duration of the contract and thru the period of establishment as specified in Section 611-3.06 "Period of Establishment". Any material that has to be replaced or repaired shall be replaced or repaired by the Contractor at no additional cost to the State.

### **METHOD OF MEASUREMENT:**

This work will be measured as the number of linear meter of water fowl enclosure fence installed. Measurement will be taken laterally along the shore line.
