

DESCRIPTION

Work shall consist of providing a full-time Environmental Supervisor having adequate training, experience, and authority to implement and maintain all environmental controls or as directed by the Engineer.

MATERIALS

None Specified

CONSTRUCTION DETAILS

The Contractor shall provide a dedicated environmental supervisor having adequate training, experience, and authority to implement and maintain all environmental control operations. The environmental supervisor shall not be assigned other duties that interfere with their performance as an environmental supervisor.

The environmental supervisor shall be adequately trained in environmental requirements and implementation of control methods to fulfill the environmental requirements. They shall be certified by recognized programs, including Certified Professional in Erosion and Sediment Control, Certified Professional in Storm Water Quality, The Academy of Board Certified Environmental Professionals (ABCEP) Certified Environmental Professional, professional Wetland Scientist, licensed Landscape Architect, or licensed Professional Engineer, or possess equivalent credentials as approved by the Department. An Environmental supervisor not competent to the satisfaction of the Engineer shall be replaced immediately.

During setup and removal of all environmental controls, the environmental supervisor shall be assisted by additional workers as necessary. The environmental supervisor shall patrol the contract area to ensure that conditions on the site are adequate for environmental protection at all times and to ensure that the work adheres to the provisions for environmental control. The environmental supervisor shall ensure environmental devices are adjusted and maintained as necessary. The Contractor shall provide workers to install, maintain, adjust, and remove environmental devices as required by the work operations.

METHOD OF MEASUREMENT

The work under environmental supervisor will be measured for payment on a monthly basis to the nearest 1/4 month.

BASIS OF PAYMENT

The unit price bid for environmental supervisor shall include the cost of furnishing all labor, materials, equipment, training and direct supervision necessary to provide and support the activities of the environmental supervisor. Costs for individual environmental controls will be paid for by their respective item.
