

ITEM 17304. 0117 M - SUBBASE COURSE (LOOSE MEASURE)

DESCRIPTION

Furnish, place, and compact a subbase course in conformity with the lines, grades, thicknesses and typical sections shown on the plans, or as determined by field conditions and ordered in writing by the Engineer.

Subbase construction may consist of a single layer of Type 4 Subbase Course.

MATERIALS

Material must meet the requirements of Subsection 304-2, Materials, Type 4 Subbase Course.

CONSTRUCTION DETAILS

Subbase construction must meet the requirements of Subsection 304-3, Construction Details.

METHOD OF MEASUREMENT

The quantity to be paid for is the number of cubic meters of material measured in a stockpile or by truck load count, placed as required by the plans and specifications or as ordered in writing by the Engineer. The Engineer will determine whether truck load count or measurement in a stockpile will be used.

BASIS OF PAYMENT

The unit price bid for this work includes the cost of furnishing all labor, material and equipment necessary to complete the work. Include the cost of adding water unless the items for furnishing and applying water are included in the contract. No direct payment will be made for losses of material resulting from compaction, foundation settlement, erosion or any other cause. Include the cost of such losses in the price bid. No deductions will be made for the volumes occupied by manholes, catch basins and other such objects.

Progress payments will be made after the subbase course has been properly placed and compacted. Payment will be made at the unit price bid for seventy five (75) percent of the quantity. The balance of the quantity will be paid for after the final finishing to the required tolerance and just prior to the placing of the pavement.
