

ITEM 02304.03 M - SUBBASE COURSE - TYPE 2 (Modified Gradation)

Reason for DisApproval:

The specification has been problematic from a production standpoint in that the producers/suppliers of the material find it very difficult to physically produce a material that meets the gradation specifications to supply our construction projects. In addition, our Engineers-In-Charge (EIC's) have been informing me the material is sometimes unstable and ruts under the wheel loads of the construction equipment making it difficult to place the asphalt pavement on.

Spec DisApproved

ITEM 02304.03 M - SUBBASE COURSE - TYPE 2 (Modified Gradation)

DESCRIPTION

The work shall consist of furnishing, placing, and compacting the subbase course in conformity with the lines, grades, thicknesses and typical sections shown on the plans, or as determined by field conditions and ordered in writing by the Engineer.

MATERIALS

Subsections 304-201.01, 304-2.02 except the Gradation Requirements shall be as follows:

<u>Sieve Size Designation</u>	<u>Percent Passing By Weight</u>
50 mm	100
6 mm	15-35
No. 40	5-30
No. 200	0-7

and 304-2.03 shall apply.

CONSTRUCTION DETAILS

Subsections 304-3.01, 304-3.02, 304-3.03, 304-3.04 shall apply. Subsection 304-3.05 shall not apply.

METHOD OF MEASUREMENT

Subsection 304-4.01 shall apply.

BASIS OF PAYMENT

Subsection 304-5.01 shall apply.
