

ITEM 02520.6090 M - SAWCUTTING CURBS

DESCRIPTION:

This work shall consist of sawcutting existing concrete or granite curb to create sidewalk curb ramps where shown in the proposal or where directed by the Engineer.

MATERIALS:

None specified.

CONSTRUCTION DETAILS:

Each ramp shall be laid out by the contractor as detailed in the proposal and approved by the engineer prior to beginning work at that location.

Saws shall be capable of making smooth, full-thickness cuts flush with the pavement and at side-flare slopes as shown in the proposal. All saw marks and sharp edges shall be ground smooth. Clean-up and disposal of removed material shall be made prior to opening up the new sidewalk or ramp.

METHOD OF MEASUREMENT:

Sawcutting curbs will be measured as the number of meters of curb sawcut. Measurements will be taken along the top front arris line of the curb between the outer limits of the sawcut.

BASIS OF PAYMENT:

The unit price per meter shall include the cost of all labor and equipment necessary to complete the work.
