

ITEM 10551.1080 M - CHANNEL CLEANING FOR PILE INSTALLATION - FIXED PRICE

DESCRIPTION

Under this item, the Contractor shall inspect the channel bottom and shall clean the channel bottom and subsurface of any debris that might impede the installation of piles and drilled shafts for the bridge and the fishing pier piles.

MATERIALS

No materials are specified under this item.

CONSTRUCTION DETAILS

The Contractor will be responsible for inspecting the channel bottom for any debris such as stone filling, rip-rap, and concrete from a previous demolition in the areas of the proposed bridge piers, fishing pier and its boardwalk. The Contractor is responsible for removal of all surface and subsurface debris that may impede the proper installation of concrete piles, drilled shafts and timber piles. Localized cleaning of the channel bottom is permissible, however widespread dredging is not allowed.

The Contractor shall submit for approval by the Engineer any method to be used to remove obstructions or debris. The findings of the channel bottom inspections shall be reported to the Engineer and the cleaning of surface and subsurface debris may only commence at the direction of the Engineer.

The Contractor shall furnish all labor and equipment necessary to accomplish the work to the satisfaction of the Engineer.

Work shall be conducted in conference with the requirements and conditions of the NYSDEC permits and all other requirements outlined in the Contract documents and to the satisfaction of the Engineer.

METHOD OF MEASUREMENT

This item will be measured for payment on a lump sum basis for work completed in accordance with this specification, the contract documents and as directed by the Engineer.

BASIS OF PAYMENT

The amount set forth in the proposal is a fixed price for all bidders. Any bid other than the specified amount shown on the itemized proposal will be adjusted to reflect the indicated fixed price and the Contractor shall only be entitled to payment for this item strictly in accordance with this paragraph. Actual payment for the work performed under this item will be made in accordance with Section 109-05 of the Standard Specifications for the cost of labor and equipment submitted by the contractor subject to review and approval by the Engineer.
