

ITEM 553.0402nn09 - ACCESS ROAD

DESCRIPTION

This work shall consist of furnishing, placing and maintaining an access road at the location and to the elevations shown on the Contract plans. All work done shall conform to all Federal, State, County and Local Regulations and permit conditions in accordance with the contract documents and as directed by the Engineer.

MATERIALS

As indicated in the Contract plans.

CONSTRUCTION DETAILS

Access roads shall be constructed as indicated on the Contract plans and in compliance with any regulatory agency permit conditions. Prior to construction, all temporary soil erosion and sediment control measures shall be installed in accordance with §209 of the Specifications. Construction and maintenance of the access road shall be performed in such a manner as to minimize turbidity and discharge of fine materials into the waterway. Temporary erosion control measures shall be maintained by the Contractor until the disturbed areas are permanently stabilized.

Major damage to the access road resulting from overtopping floodwaters shall be repaired as directed by the Engineer in accordance with the requirements of §109-05 Extra Work, Force Account Work, Dispute Compensation and Recordkeeping. Major damage is defined as access road damage involving loss or displacement of the medium stone fill. The Contractor shall bear all costs to repair minor damage to the access road which may result from overtopping floodwaters which includes, but is not limited to, loss of the riding surface.

METHOD OF MEASUREMENT

This work will be measured on a lump sum basis.

BASIS OF PAYMENT

The lump sum price bid shall include the cost of furnishing all labor, materials, and equipment necessary to satisfactorily install and maintain the access road. Restoration work resulting from major damage shall be paid in accordance with § 109-05 of the Standard Specifications.

Partial payment will be as follows:

Ninety (90) percent when the access road is completely installed and operable. Ten (10) percent when the access roads are no longer required to progress contract work.
