

ITEM 63555.8401 M - FURNISHING EQUIPMENT FOR GROUTING, EMERGENCY STANDBY CONTRACT WORK

DESCRIPTION:

Under this item the Contractor shall furnish at the job site equipment capable of the placement of the contract grout item, under pressure. Prior to the delivery of the equipment at the site, the Contractor shall furnish the Engineer for approval, the Specifications for the equipment including pumping pressure, delivery rates and data on the anticipated pressure drops for piping schemes adequate to deliver the grout to the point of installation.

MATERIALS:

Not specified.

CONSTRUCTION DETAILS:

The equipment shall be adequate to furnish a continuous supply of grout at a pressure of 276 kPa at the delivery nozzle.

The equipment shall also have a gauge that registers pressure at delivery nozzles. Equipment which in actual operation prove inadequate, in the judgement of the Engineer, to satisfactorily complete the work shall be immediately removed from the job site and replaced. No payment will be made for such equipment.

The delivery nozzle shall be capable of passing through the grout pipe or of utilizing the grout pipe for delivery of grout. All connections involved shall be tight and shall not leak at the necessary working pressure.

METHOD OF MEASUREMENT:

Payment will be made once per site for the set of equipment furnished to the site at the unit price bid for this item. No additional payment will be made for mobilizing/remobilizing this set of equipment to the site.

BASIS OF PAYMENT:

The unit price bid shall include the cost of furnishing all labor, materials and equipment necessary to deliver, install, use and remove the pumping and delivery equipment. It shall include, but not be limited to, delivery pipe, nozzles, hoses, adaptors, and site preparation and cleanup.

Payment will be made under:
