

ITEM 16562.50 M - FASCIA PRECAST CONCRETE BEAMS

DESCRIPTION

This work shall consist of furnishing and erecting Fascia Precast Concrete Beams as shown on the Contract Plans and in accordance with these specifications.

MATERIALS

The Fascia Precast Concrete Beams shall meet the requirements of the P.C.C.M. Bolts, nuts, washers and plates used for anchoring the Fascia Precast Concrete Beams shall meet the requirements of ASTM F568M, A563M, F463M and A709M GRADE 250 respectively and shall be galvanized in accordance to Section 719-01.

CONSTRUCTION DETAILS

The requirements of the P.C.C.M. shall apply in their entirety. In lieu of the precast beam shown on the Contract Plans, the Contractor shall have the option of submitting his own design to the D.C.E.S. for approval. In submitting such a design, the Principal-Controlling Dimensions shall not be altered. The Contractor may also provide extra prestressing steel in the beam shown on the Contract Plans for handling and transporting.

METHOD OF MEASUREMENT

The Contractor will be paid the Lump Sum price bid for the "Fascia Precast Concrete Beams".

BASIS OF PAYMENT

The Lump Sum bid price shall include the cost of labor, materials and equipment necessary to complete the work.
