

**ITEM 564.0501 16 - INSTALL STATE SUPPLIED STRUCTURAL STEEL**

**DESCRIPTION**

This work shall consist of installing Structural Steel in accordance with the contract documents and as directed by the Engineer. Steel plate for fabricating the girders will be supplied by the State. All other steel required for this work, including nuts, bolts, washers, and diaphragms will be supplied by the Contractor.

**MATERIALS**

The provisions of Section 564-2 and the following will apply:

The State will supply steel plate which meets the requirements of Section 564-2. If any steel supplied by the State fails to meet required tolerances, the Contractor shall replace that steel at the expense of the State.

The Contractor shall arrange with the State to pick up the State Supplied Structural Steel for fabrication. The Structural Steel is located at:

Allegany Sub-Residency  
4220 Rt. 417  
Allegany, NY 14706  
716-373-2814

**CONSTRUCTION DETAILS**

The provisions of Section 564-3 will apply.

**METHOD OF MEASUREMENT**

The provisions of Section 564-4 will apply.

**BASIS OF PAYMENT**

The provisions of Section 564-5 will apply.
