

## **ITEM 05565.80 M - PLAIN RUBBER PADS**

### **DESCRIPTION**

This work shall consist of furnishing and placing plain rubber pads where indicated on the Contract plans.

### **MATERIALS**

Materials shall meet the requirements specified in the following subsections of Section 700-Materials:

Plain Rubber Pad        728-03

The requirement of shape factors for rubber pads, as specified under Section 728-03 shall be waived.

It is desirable what the rubber pads be furnished and installed in lengths as long as practical. The minimum length of rubber pad shall not be less than one meter.

### **CONSTRUCTION DETAILS**

Shop drawings will not be required for this item.

All rubber pads shall be located to correct position on top of the backwall bearing plates as shown on the contract plans. The bearing plates shall be cleaned of all dirt in a manner satisfactory to the Engineer before placing the pads. The gap between the ends of the pads shall not exceed 10 mm.

### **METHOD OF MEASUREMENT**

The quantity to be paid for under this item shall be the number of meters of plain rubber pad as measured along the top of backwall. No deductions will be made for gaps.

### **BASIS OF PAYMENT**

The unit price bid per meter shall include the cost of furnishing all labor, materials and equipment necessary to complete work.
