

**ITEM 11567.91 RESEALING JOINT IN CONCRETE SAFETY WALK AND
MEDIAN**

DESCRIPTION

This work under this item shall include removing existing joint filler material, cleaning and preparing concrete surface area to receive new sealer and installing backer rod and sealer material.

MATERIALS

The requirements of Subsection 705-06, Caulking Compound for Structures, shall apply.

CONSTRUCTION DETAILS

The existing joint opening shall be cleaned and prepared and the new sealer material installed as per the Manufacturer's recommendations.

METHOD OF MEASUREMENT

This work will be measured as the number of meters of joint resealed as required. Measurement shall be taken horizontally and vertically along the centerline of the joint between the outer limits indicated on the Contract Plans.

BASIS OF PAYMENT

The unit price bid shall include the cost of all labor, materials, and equipment necessary to satisfactorily complete the work.
