

**ITEM 04569.08 M - CONCRETE ANCHORAGE FOR CONCRETE BARRIER RAILING**

**DESCRIPTION:**

This work shall consist of placing a concrete anchorage for Concrete Barrier Railing (Texas-style) at location and dimensions shown on the plans or as directed by the Engineer.

**MATERIALS:**

All provisions of §555-2 and §556-2 shall apply. Footing Concrete, Class A shall be used.

**CONSTRUCTION DETAILS:**

All provisions of §555-3 and §556-3 shall apply, except as noted.

The top horizontal surface of the anchorage shall be intentionally roughened to provide an interlock for subsequent asphalt or concrete courses.

**METHOD OF MEASUREMENT:**

This work will be measured as the number of linear meters of anchorage satisfactorily completed in the field. Measurement will be taken along the vertical face of the anchorage, closest to the roadway centerline.

**BASIS OF PAYMENT:**

The unit price bid shall include the cost of furnishing all labor, materials, and equipment necessary to complete the work. Excavation to place the vertical element of the anchorage shall be paid under Item 206.02, Trench and Culvert Excavation.

Payment will be made under:
