

ITEM 586.1001 08 – TEMPORARY BRIDGE REPAIR

DESCRIPTION: This work shall consist of providing the necessary labor, materials and equipment for temporary bridge repair as directed by the Engineer In Charge.

MATERIALS: The materials and methods used for the repair shall meet the requirements of the Standard Specifications.

CONSTRUCTION DETAILS: Construction detail requirements shall be determined at the time the “scope of work” is defined by the Engineer In Charge.

METHOD OF MEASUREMENT: The Engineer’s Estimate indicates a labor, material and equipment cost for this Contract. This work will be measured for payment on a dollars-cents pay unit based on the force account records submitted to reflect the work actually performed in accordance with Section 109-05B and Section 109-05C of the Standard Specifications.

BASIS OF PAYMENT: The contractor shall keep accurate labor, materials and equipment cost records for the work described above in a manner required by Section 109-05 of the Specifications.

The payment of the actual work will be made in accordance with NYSDOT Standard Specifications.

The fixed price show in the proposal shall not be altered in any manner by the bidder. Should the amount shown be altered, the new figure will be discarded and the original price will be used to determine the total amount bid for the Contract.
