

ITEM 586.18 17 – DRILLING HOLES IN EXISTING SUBSTRUCTURE

DESCRIPTION

This work consists of drilling holes through the existing substructure at the locations and of the diameter and inclination shown on the plans or as directed by the Engineer.

MATERIALS

None.

CONSTRUCTION DETAILS

Progress holes through the full substructure thickness.

METHOD OF MEASUREMENT

The quantity of holes to be paid is the number of linear meters drilled, measured from the front face to the back face of the existing substructure along the hole.

BASIS OF PAYMENT

Include in the unit price bid the cost of furnishing all labor, materials, and equipment necessary to satisfactorily complete the work including mobilization of the drilling equipment.
