

ITEM 23595.32 M - PROTECTION COURSE FOR MEMBRANE WATERPROOFING SYSTEM

1. DESCRIPTION

The work shall consist of furnishing and installing a protection course for a membrane waterproofing system. Work shall be done at the locations indicated on the Contract Plans.

2. MATERIALS

Materials shall appear on the Department's Approval List as Plank Protection Course.

The thickness of material, shown on the Contract Plans, shall be the thickness supplied.

3. CONSTRUCTION DETAILS

1. Plank Protection Course shall be placed over the membrane as soon as practicable after the membrane has been laid. Dirt and other foreign material shall be removed from the surface of the membrane before the protective Plank Protective Course is placed.

2. The Plank Protective Course shall be layed dry over the completed waterproofing system. They shall be installed by dual-layer application composed of two completely independent layers. The joints shall be staggered, between layers.

4. METHOD OF MEASUREMENT

The work will be measured as the number of square meters of Plank Protection Course installed.

5. BASIS OF PAYMENT

The unit price bid per square meters shall include the cost of all labor, materials and equipment necessary to complete the work.
