

**ITEM 603.22 06 - CONCRETE PAVING FOR CORRUGATED METAL PIPE
INVERTS**

DESCRIPTION

Place cement concrete over the inverts of corrugated metal pipes as shown on the Contract Plans or as directed by the Engineer.

MATERIALS

The requirements of §603-2 of the Standard Specifications shall apply.

CONSTRUCTION DETAILS

The requirements of §603-3.07, Concrete Paving for Corrugated Metal Culverts of the Standard Specifications shall apply.

Prior to placing concrete paving, the pipe shall be cleaned in a manner approved by the Engineer, including the removal of existing paved inverts.

METHOD OF MEASUREMENT

Measurement will be the number of square meters computed by multiplying the length measured along the centerline of paving by the distance between the payment lines as shown on the Contract Plans.

BASIS OF PAYMENT

The unit price bid per square meter shall include the cost of all labor, materials, and equipment necessary to complete the work including pipe cleaning, surface preparation, cement concrete, steel wire fabric reinforcement and application of curing compound.
