DESCRIPTION:

Under this item the Contractor shall furnish, install and test (PVC) Sewer Pipe and fittings of the size and at the locations shown on the plans or where directed by the Engineer.

MATERIALS:

As specified in the contract documents.

CONSTRUCTION DETAILS:

As specified in the contract documents.

METHOD OF MEASUREMENT:

The quantity will be measured as the number of meters of new sewer pipe (including all necessary connections and fittings) furnished and installed in accordance with the plans, specifications and as directed by the Engineer.

BASIS OF PAYMENT:

The unit prices bid per meter shall include the cost of furnishing all labor, materials, and equipment necessary to satisfactorily complete the work including, but not limited to fittings, plugs, connections, and leakage tests.

Excavation, sheeting, and backfill material will be paid for separately under their respective items.

Progress payments will be made at the unit price bid for 80 percent of the quantity of pipe installed. The remaining 20 percent will be paid for when the testing of the system has been completed.
