

ITEM 606.10 10 M – INSTALL DOUBLE BOX BEAM GUIDE RAIL MOUNTED ON STEEL SHEETING

DESCRIPTION

Under these items the Contractor shall furnish, install, remove and dispose double box beam guide rail on steel sheeting.

MATERIALS

The box beam guide rail materials shall be in conformance with the contract drawings and §710-23 of the Standard Specifications.

CONSTRUCTION DETAILS

Double box beam guide rail shall be attached to sheeting as shown on the drawings. The provisions of §568-3.01 shall apply with the exception that the rail is welded directly to steel sheeting.

Welding shall conform to the requirements of the New York State Steel Construction Manual.

METHOD OF MEASUREMENT

The quantity to be paid for double box beam guide rail mounted on steel sheeting shall be the number of meters measured along the centerline of guide rail between the outer limits indicated on the contract plans.

BASIS OF PAYMENT

The unit price bid shall include the cost of furnishing all labor, materials and equipment necessary to furnish, install, remove, and dispose of the double box beam guide rail. All welds, shims, splices with their hardware, bolts with nuts, washers, and rails shall also be included in the price bid.

Steel sheeting shall be paid for under its appropriate item.
