

**ITEM 607.3001 11 - FURNISH AND INSTALL MIDDLE RAIL FOR CHAIN
LINK FENCE**

DESCRIPTION

This work shall consist of furnishing and installing new middle rail on the existing chain link fence, that shall match the existing middle rail, if present, in the locations shown on the plans or as directed by the Engineer.

MATERIALS

Middle rail and coupling shall meet the material requirements of Subsection 710-10.03 of the Standard Specification and as shown on the plans. It shall match the existing middle rail. In the event that there is no existing middle rail to match, then it shall meet the material requirements of Subsection 710-10.03 for top or bottom rail.

CONSTRUCTION DETAILS

Middle rail shall be installed and connected to the existing chain link fence posts according to the contract documents. In the event that there is an existing middle rail to match, then middle rail shall be connected to it by threaded and sleeve type couplings or as directed by the Engineer.

METHOD OF MEASUREMENT

This work will be measured as the number of linear meters of middle rail, measured along the axis of the middle rail, furnished and installed as shown on the plans or directed by the Engineer.

BASIS OF PAYMENT

The unit price bid per linear meter shall include all labor, material and equipment necessary to properly complete the work.
