

ITEM 11607.3610 M - REPLACE FENCE POST

DESCRIPTION:

This work shall consist of furnishing and installing fence posts of the same type and size, and at the same location as the existing fence post, including removing and disposing of the existing post and concrete foundation as directed by the Engineer.

MATERIALS:

The post and concrete for foundation shall conform to the requirements specified in Subsection 607-2 of the Standard Specifications.

CONSTRUCTION DETAILS:

Subsection 607-3 of the Standard Specifications shall apply.

All elements of the existing fence that are attached to the post shall be carefully removed so as not to preclude their reuse, and the existing fence post and foundations removed.

The hole from the existing foundation shall be used for the new foundation. It shall be enlarged, if needed, to conform to the foundation size for this type of post as shown on the current standard sheet.

METHOD OF MEASUREMENT:

The quantity shall be measured as the actual number of fence posts replaced.

BASIS OF PAYMENT:

The unit price bid for each fence post replaced shall include the cost of all labor, equipment and materials necessary to complete the work.
