

## **ITEM 10607.3623 M - FURNISH AND INSTALL TOP RAIL FOR CHAIN LINK FENCE**

### **DESCRIPTION**

This work shall consist of furnishing and installing new top rail that will match to the existing top rail on the existing chain link fence in the locations shown on the plans or as directed by the Engineer.

### **MATERIALS**

Top rail and coupling shall meet the material requirements of Subsection 710-10.03 of the Standard Specification and as shown on the plans. It shall match the existing top rail. The missing post caps shall be replaced.

### **CONSTRUCTION DETAILS**

Top rail shall be connected to existing top rail on chain link fence by threaded and sleeve type couplings or as directed by the Engineer. Existing post caps shall be removed and reset in proper location in order to align the top rail into position.

### **METHOD OF MEASUREMENT**

This work will be measured as the number of linear meters of top rail, measured along the axis of the top rail, furnished and installed as shown on the plans or directed by the Engineer.

### **BASIS OF PAYMENT**

The unit price bid per linear meter shall include all labor, material and equipment necessary to properly complete the work.
