

**ITEM 10607.3630 M - REMOVE AND DISPOSE OF BARBED WIRE AND SUPPORT
ARM AND REPLACE WITH A NEW CAP**

DESCRIPTION

The work under this item shall consist of removing barbed wire and the support arms and replacing the support arms with new caps on the posts of the chain link fence.

MATERIAL

New caps shall be an equivalent size and strength to fit the top of the fence posts as approved by the Engineer and shall conform to the requirements of Section 710-10.03.

CONSTRUCTION DETAILS

The plans will indicate or the Engineer will specify where existing barbed wire is to be removed. The Contractor shall remove all barbed wire strands existing in these locations. Barbed wire removed shall become the property of the Contractor and shall be disposed of by him off the site of the work.

Barbed wire support arms shall be removed from existing fence posts and disposed of by the Contractor off the work site. New caps, as approved for installation by the Engineer, shall be installed and properly fastened on the existing posts.

METHOD OF MEASUREMENT

This item will be measured by the number of barbed wire support arms removed and replaced with caps. Barbed wire removed will not be measured for payment.

BASIS OF PAYMENT

The unit price bid shall include the cost of all labor, materials, and equipment necessary to complete the work.
