

ITEM 610.0405 03 M - INTERCHANGE MOWING AND LITTER REMOVAL - LABOR AND MATERIAL -FIXED PRICE

DESCRIPTION:

The work shall consist of providing the necessary labor and materials for the additional: (1) Mowing of existing turf at interchanges as designated by the Engineer in Charge, within the designated right of way to those limits established during previous cuttings, or as directed by the Engineer; (2) Trimming of vegetation from around roadside obstacles and their proximities that occur within the designated mowing area, and; (3) Removal and disposal of litter and debris from roadside rights of way within the designated interchange area. The completion of all of the above mentioned work at the designated interchange, deemed satisfactory to the Engineer in Charge, will be considered completion of the required work at that interchange.

MATERIALS:

None Specified

CONSTRUCTION DETAILS:

- A. Litter Removal and Disposal - The contractor shall be responsible for removing all litter and debris in the areas designated by the engineer. Litter to be removed shall include but not be limited to; tires, metal, plastic and glass bottles, cans, and paper. The designated areas for litter removal shall include but not be limited to right of way fences, ditches, areas behind guide rails, and medians. Any litter remaining after mowing shall also be removed. Litter shall be disposed of as per Section 107-10 of the Standard Specifications.
- B. Mowing - Mowing shall be performed on all areas designated by the Engineer. Vegetation shall be mowed to a height of 100mm.

The contractor shall use only properly equipped tractors and mowing equipment which have been approved by the Engineer. The cutting blades on all mowers must be sharp and in proper operating condition to prevent damage to the turf. The effort to mow some areas such as drainage ditches, stone-lined ditches, raised curbs, cut slopes and fill slopes, and around roadside obstacles may require the use of specialized equipment in order to perform the mowing operation. The types of equipment required may include but not be limited to; articulated mowers (for mowing over guide rail), slope mowers, and sickle, flail, or rotary mowers as well as hand-held trimming equipment.

The contractor may, as approved by the Engineer and according to good horticultural practices, remove and dispose lower branches of major trees that interfere with safe mowing. Such pruning will only be performed on plant material where the removal and disposal of branches is consistent with the plant material's typical habit of growth.

- C. Trimming - Trimming shall be performed on all areas designated by the Engineer. Trimming shall consist of the reduction of vegetation from all roadside obstacles including but not limited to sign posts, utility poles, guide rail posts, ditch lines, headwalls, bridge abutments, and from around landscape trees and shrubs.

ITEM 610.0405 03 M - INTERCHANGE MOWING AND LITTER REMOVAL - LABOR AND MATERIAL -FIXED PRICE

- D. Liability - The contractor shall be responsible for the replacement or care, as determined by the Engineer, of any plant materials, that as a result of the contractor's operations are either dead or damaged. Care may consist of, but not be limited to pruning and fertilizing.
- E. Schedule - The contractor will be given a schedule of additional interchange mowing and litter removal after the award of the contract. The schedule will state what interchanges outside the City of Syracuse will require the additional maintenance and the required frequency of the additional maintenance. The work required under this item is in addition to the work required under item 08610.04M, Right of Way Mowing and Litter Removal.
- F. Maintenance and Protection of Traffic - The contractor shall provide all the necessary maintenance and protection of traffic work to support the interchange mowing and litter removal.

METHOD OF MEASUREMENT:

The Engineer's Estimate indicates a base labor and base material cost for estimating purposes only. This work will be measured as the actual cost of labor and materials required to complete the work, excluding overhead and profit, which will be paid under its separate item. The cost shall be based upon force account records submitted to reflect the work actually performed in accordance with Section 109-05B2 and Section 109-05C of the Standard Specifications. The fixed price bid amount is not to be altered in any manner by the bidder. Should the bidder alter the amount shown, the altered figure will be disregarded and the original price will be used to determine the total amount bid for the contract.

BASIS OF PAYMENT:

The contractor shall keep accurate labor and material cost records for the work described above in a manner required by Section 109-05 of the Standard Specifications. The payment of the actual work will be determined by the actual cost for the Labor and Materials required to satisfactorily complete the work except for the following: when the cumulative cost of items:

- 610.0405 03M, Interchange Mowing and Litter Removal - Labor and Material - Fixed Price
- 610.0406 03M, Interchange Mowing and Litter Removal - Overhead and Profit - Percent
- 610.0407 03M, Interchange Mowing and Litter Removal - Equipment Cost - Fixed Price

at any given interchange area exceed \$3,000 per year of the contract, then the monies in excess of \$3,000 will be reimbursed to the contractor under item 610.0404 03M, Interchange Mowing and Litter Removal - Fixed Price.
