

ITEM 610.1203--05 – WEED CONTROL MAT

DESCRIPTION

This work shall consist of furnishing, installing, and maintaining a weed control mat, in conformance with the special provisions described herein, the manufacturer's requirements, the contract documents, and as directed by the Engineer.

MATERIALS

The materials shall meet the requirements of the following subsections of the NYSDOT standard specifications.

Weed Control Barriers Type C 713-18

Prior to the delivery of the weed control mat, the Contractor shall submit two (2) one square meter samples to the Engineer for approval. No separate payment will be made for these samples and their cost shall be included in the bid price for this pay item.

CONSTRUCTION DETAILS

The construction details shall follow the guidance established under:

Permeable Weed Control Landscape Fabric 610-3.09

Before ordering the weed control mat, a copy of the manufacturer's installation requirements shall be provided to the Engineer. No separate payment will be made for this, and the costs for acquiring and supplying the manufacturer's installation requirements shall be included in the bid price for this pay item.

The Contractor shall follow the manufacturer's installation instructions, and a manufacturer's representative shall certify that the mat's field installation satisfies the manufacturer's and NYSDOT's requirements

METHOD OF MEASUREMENT

Payment for the weed control mat will be measured by the "square meter on slope", to the nearest square meter, for the weed control mat surface area, including all post areas, as furnished and installed.

BASIS OF PAYMENT

The unit price bid for each square meter on slope of weed control mat shall include the cost of all labor, materials and equipment necessary to satisfactorily complete the work.
