

ITEM 615.0402--07 – MAINTAIN, REPAIR AND REMOVE PREVIOUSLY INSTALLED TREE/VEGETATION PROTECTION BARRIER

DESCRIPTION:

This work shall consist of maintaining, repairing and removing previously furnished and installed tree or vegetation protection barriers when directed by the Engineer.

MATERIALS:

Any new materials used to repair or replace previously installed tree/vegetation protection barriers shall conform to the requirements of Item 615.0402--08.

CONSTRUCTION DETAILS:

The existing tree or vegetation protection barrier shall be maintained in good condition and repaired in accordance with Item 615.0402--08 prior to moving construction equipment onto any site where the trees or vegetation designated for protection are located.

METHOD OF MEASUREMENT:

The maintenance of tree/vegetation protection barriers will be measured as the number of meters of barrier maintained, repaired and subsequently removed upon completion of work as measured along the top of the barrier.

BASIS OF PAYMENT:

The unit price bid per meter shall include the cost of furnishing all labor, materials and equipment necessary to satisfactorily complete the work. Monthly payments will be made in proportion to the amount of work done as determined by the Engineer. The remainder of the unit bid price shall be paid for after complete removal of the existing tree/vegetation barrier.
