

ITEM 615.10 10 - KIOSK STRUCTURE - NYSOPRHP

DESCRIPTION:

This work shall consist of designing and constructing a kiosk and its foundation of the type and size and at the locations shown on the plans.

MATERIALS:

Specified in the contract documents.

CONSTRUCTION DETAILS:

In coordination with staff of New York State Office of Parks, Recreation, and Historic Preservation, the kiosk shall be installed at the locations indicated in the plans. An appropriate kiosk and foundation design, details, and shop drawings, meeting the parameters given in the plans and these specifications shall be submitted to the Engineer for approval at least 14 days before Construction begins. Construction shall begin only after receiving written approval from the Engineer.

Kiosk and foundation design shall conform to the 2010 Building Code of New York State. All design work and detail development shall be done by a Registered Professional Engineer. Architectural details shall be done by a Registered Architect.

METHOD OF MEASUREMENT:

The quantity to be paid for shall be the number of kiosk and foundation units designed and constructed in accordance with the contract documents.

BASIS OF PAYMENT:

The unit price bid shall include the cost of all engineering, labor, equipment and materials necessary to complete the work. The interpretive panel, tack board, the metal frame and all associated connection hardware will be paid for separately.
