

ITEM 10615.1104 M - SNOW AND ICE REMOVAL ON PAVEMENT SURFACES (PARK AND RIDE LOT)

DESCRIPTION:

This work shall consist of snow and ice removal on pavement surfaces at Park And Ride Lot locations as specified elsewhere in the contract documents or as directed by the Engineer.

MATERIALS:

None specified.

CONSTRUCTION DETAILS:

Equipment for snow and ice removal on pavement surfaces may be selected by the Contractor, but shall be subject to the approval of the Engineer and shall conform to all applicable local, state, and federal laws, regulations and codes. The work required to remove snow and ice at Park and Ride locations shall be performed in accordance with these specifications, the contract documents and to the satisfaction of the Engineer. The State will notify the contractor twenty-four (24) hours before work is to begin that snow and ice removal may be required.

The Contractor shall supply any necessary devices to maintain and protect traffic as required by the Engineer. Work shall be conducted in such a manner that the Park and Ride Lot shall not be damaged. If the Contractor's operations damage the Park and Ride Lot, the Contractor shall be required to repair the damage to the satisfaction of the Engineer at the Contractor's expense. All snow and ice removed from each Park and Ride Lot location shall be disposed of at a nearby site approved of by the Engineer.

The Contractor shall remove snow and ice from the pavement surfaces intended for parking and travel by motorized vehicles so no more than 25 mm of snow and/or ice remain. The Contractor shall remove snow and ice from the pavement surfaces intended for non-motorized travel so that no snow and/or ice remain. Sand and/or salt shall be broadcast over the pavement surfaces cleared of snow and/or ice.

The Contractor shall submit plans for the approval of the Engineer for the removal of snow and ice at each designated Park and Ride Lot in the contract within one (1) month of the Park and Ride Lot being designated for snow and ice removal.

METHOD OF MEASUREMENT:

Snow and ice removal on pavement surfaces will be paid on a Lump Sum basis for all locations requiring snow removal regardless of the number of times each Park And Ride location is plowed for snow removal.

BASIS OF PAYMENT:

The unit price bid shall include the cost of all labor, materials and equipment necessary to complete the work. No separate payment will be made for maintenance and protection of traffic but this cost is to be included in the price bid for the snow and ice removal on pavement surfaces.

The Contractor will be paid on a monthly basis for all Park and Ride Lots requiring snow and ice removal regardless of the number of times the Park and Ride Lots are plowed during the period the locations are designated for snow and ice removal. This monthly payment will equal the Contractor's bid price for all locations requiring snow and ice removal divided by the number of months the locations are included in the contract for snow and ice removal.
