

ITEM 10615.1302 M - MOWING OF EXISTING TURF (REST AREAS)

DESCRIPTION

The work covered by this item shall consist of mowing existing turf and the removal of weeds and other vegetation growing in pavement cracks and the joints between paved surfaces within the limits of work specified in the contract documents at rest areas.

MATERIALS

None specified.

CONSTRUCTION DETAILS

Work shall be performed at the times shown in the mowing schedule and to the satisfaction of the Engineer. The Contractor is to supply maintenance and protection of traffic to prevent motorists from parking in a way that will interfere with the mowing operation.

- A. Mower Height. The mower cutting blade shall be set to a height of 100 mm unless otherwise directed by the Engineer.
- B. Mowing Schedule. Mowing shall be performed at times and intervals as specified in the Schedule of Operations as shown in the plans or as ordered by the Engineer.
- C. Weed Removal. Weeds growing in cracks and between pavement joints shall be removed flush with pavement surfaces. This work shall be performed as part of the mowing operation.
- D. Clean Up. Any grass clippings from mowing and cut vegetation from weed removal that fall onto paved areas shall be swept from the pavement and removed from the site as part of this operation.

The Contractor shall notify the Engineer 48 hours in advance of the start of work.

METHOD OF MEASUREMENT

Mowing of existing turf will be measured on an each basis each time each rest area is mowed.

BASIS OF PAYMENT

The unit price bid shall include the cost of all labor, materials and equipment necessary to complete the work. No separate payment will be made for maintenance and protection of traffic. This cost is to be included in the price bid for mowing existing turf. No payment will be made for mowing any rest area until all work previously directed by the schedule of operations has been completed.
