

ITEM 08615.2509 M - REMOVE, STORE, AND RESET PASSENGER SHELTER

DESCRIPTION:

This work shall consist of the removing, storing and resetting of a passenger shelter as detailed in the contract documents or as directed by the Engineer.

MATERIALS:

Anchor bolts used to reset the shelter shall be of the same type and size as existing, and shall be subject to the approval of the Engineer.

CONSTRUCTION DETAILS:

The shelter shall be removed from its existing location prior to the start of work in the immediate vicinity. Care shall be taken to avoid damaging the shelter during handling and storage. The contractor shall repair any damage to the passenger shelter caused by his handling and storage. The shelter shall be reset in a method approved by the Engineer.

METHOD OF MEASUREMENT:

This work shall be measured as the number of passenger shelters removed, stored and reset in accordance with the contract documents and/or as directed by the Engineer.

BASIS OF PAYMENT:

The unit price bid shall include the costs of furnishing all equipment, labor and materials necessary to complete the work.
