

ITEM 10615.2601 M - BICYCLE RACK

DESCRIPTION

Under this item, the Contractor shall furnish and install a bicycle rack in accordance with the plans and specifications or as directed by the Engineer.

MATERIALS

The bicycle rack shall be constructed of ASTM F1083 schedule 40 steel pipe. Class A concrete shall be used for the footing.

CONSTRUCTION DETAILS

Each bicycle rack shall be permanently installed on the surface by embedding the bottom portion of the galvanized steel frame, or an extension of the frame, into concrete or by installing a surface flange mount as recommended by the manufacturer.

All sidewalk restoration and excavation shall be included in the price bid for this item.

METHOD OF MEASUREMENT

The quantity to be paid for will be the number of bicycle racks furnished and installed at the locations shown on the plans or ordered by the Engineer.

BASIS OF PAYMENT

The unit price bid for each bicycle rack shall include the cost of furnishing all labor, materials and equipment necessary to complete the work.
