

ITEM 10615.3010 M - REMOVING VEGETATION FROM PAVEMENT JOINTS AND CRACKS

DESCRIPTION

This work shall consist of complete removal and disposal of all vegetation from joints and cracks in paved medians, sidewalks, paved areas adjacent to curbs, and other paved areas as specified in the contract documents or as directed by the Engineer.

MATERIALS

Materials and equipment for removing vegetation from pavement joints and cracks may be selected by the Contractor, however, they must be approved by the Engineer and shall comply with all applicable state or federal law, regulation or codes.

CONSTRUCTION DETAILS

The Contractor shall completely remove all vegetation from the specified joints and cracks. The removal and disposal of the vegetation must be in a manner acceptable to the Engineer. The area shall be swept and left with a clean neat appearance.

METHOD OF MEASUREMENT

Removing vegetation from pavement joints and cracks will be measured as the number of linear meters of joints and cracks that have satisfactorily had all vegetation removed and disposed.

BASIS OF PAYMENT

The unit price bid per linear meters shall include the cost of all labor, materials and equipment necessary to remove and dispose of all vegetation as specified.
