

**ITEM 05615.400X M - BACKSTOPS**

**DESCRIPTION:**

The work shall consist of furnishing and installing backstop fencing and appurtenances in conformance with the details shown on the Contract Drawings. The requirements of Section 607 shall apply as modified herein and A.O.B.E.

**MATERIALS:**

The material shall be a manufactured unit as specified in the contract documents, as well as any custom appurtenances necessary to complete the transitions to new or existing standard fencing sections at either end of the unit.

Any material not supplied by the Manufacturer shall meet the applicable requirements of Section 607-2, A.O.B.E.

All material shall be inspected by the Engineer prior to installation. Any material found to be defective in manufacture or damaged in handling shall be repaired or removed from the worksite and replaced in kind by the Contractor as directed by the Engineer at no additional cost.

**CONSTRUCTION DETAILS:**

Assembly and erection procedures shall conform to the Manufacturer's instructions and the requirements of Section 607-3, A.O.B.E.

The Contractor shall provide fall protection for workers in compliance with current OSHA regulations.

**METHOD OF MEASUREMENT:**

Backstops and appurtenances will be measured on an each basis for units installed to the satisfaction of the Engineer.

**BASIS OF PAYMENT:**

The price bid for each unit shall include all labor, material, equipment and appurtenances necessary to complete the work. Clearing and grubbing, excavation and disposal, cast-in -place concrete, bar reinforcement and site restoration shall be included in this item, unless stated otherwise in the contract documents.

Payment will be made under:

<b>Item No.</b>	<b>Item</b>	<b>Pay Unit</b>
05615.4001 M	Backstop - Type 1	Each
05615.4002 M	Backstop - Type 2	Each
05615.4003 M	Backstop - Type 3	Each

The type of backstop will be specified in the contract documents.
