

ITEM 11615.5710 M - INSTALLATION OF GRANITE PANEL ART WORK

DESCRIPTION.

This work consists of installing pre-fabricated granite panel art work on walls.

MATERIALS.

The granite panel art work shall be paid for under separate specifications. The materials required for this specification are those necessary to install the granite panel art work on walls as described below and to protect pedestrians.

CONSTRUCTION DETAILS.

The contractor shall affix the granite panels art work (each panel measuring 1 meter x 1 meter x 75mm) to the designated walls, via the connection detail shown in the plans, or as directed by the Engineer. The order in which these elements shall be installed shall be determined from the plans.

Throughout the installation process, pedestrian movements shall be protected via an approved pedestrian protection scheme.

Final approval of installation shall be at the discretion of the Artist and the Engineer. The contractor shall inform the Artist and the Engineer of the anticipated dates of installation no less than 30 days prior to installation.

METHOD OF MEASUREMENT.

This work will be measured as a lump sum to completely install the granite panel art work on the designated walls in accordance with the plans, specifications, and orders of the Engineer.

BASIS OF PAYMENT.

The lump sum bid price shall include the cost of furnishing all labor, materials, and equipment necessary to complete the work including pedestrian protection along the work zone.
