

## **ITEM 10615.61 M - REMOVE, STORE AND REINSTALL EXISTING METAL STAIRCASE**

### **DESCRIPTION**

This work shall consist of the removal, storage and reinstalling of metal staircases at the locations indicated on the contract plans, including the removal of existing bolts and the installation of high strength bolts, nuts and washers.

### **MATERIALS**

Fasteners shall meet the requirements of Subsection 715-16 "Stainless Steel Connecting Products" of the Standard Specification.

### **CONSTRUCTION DETAILS**

The Contractor shall carefully dismantle and remove the existing staircase, provide safe storage at a location approved by the Engineer and reinstall at its original position. Actual removal procedures shall conform to Subsection 589-3 of Standard Specification.

### **METHOD OF MEASUREMENT**

Measurement will be taken as each staircase removed, stored and reinstalled.

### **BASIS OF PAYMENT**

The unit price bid shall include the cost of all labor, materials and equipment necessary to complete the work.

Progress payments will be made according to the following schedule:

1. Disassembly and Storage: Sixty percent of the measured quantity will be paid for after the staircase has been removed and stored.
2. Reinstallation: The remainder of the measured quantity will be paid for after the staircase has been reinstalled as required.
